National Space Day

National Space Day (NSpD), is an annual celebration in India. Celebrated on August 23rd, honors the triumph of Chandrayaan-3's Vikram lander. This day seeks to promote space science and astronomy nationwide. The first celebration on August 23, 2024, will highlight the theme **"Touching lives while touching the moon: India's Space Saga."**

Why we Celebrate?

Chandrayaan-3 India's 3rd lunar mission, launched by **Indian Space Research Organisation (ISRO)**. It embarked its journey aboard on LVM3-M4 launch vehicle on 14th July, 2023 from Sriharikota, Andhra Pradesh. The mission gained global recognition when its Vikram lander, carrying the Pragyan Rover, made a successful soft landing on the **Moon's South Pole (Shiv Shakti Point)** on August 23, 2023. This achievement made India the first country to land on the Lunar South Pole and the fourth to land on the moon.

Chandrayaan-3 highlights India's growing expertise in Space exploration and aims to advance our knowledge of the moon's geology and resources.

NSpD ISRO Merchandise

Space Arcade features a range of products that celebrate and commemorate the **1st National Space Day** in collaboration with the **Indian Space Research Organisation (ISRO)**
